

Rebecca,

Thank you so much for being so helpful to me during the past election. Like so many of our conversations I missed something that I had to do and as a result received a letter from you. This one is in reference to 30 Day Post-General Report. I apparently failed to report in writing contributions of over \$1000 between 2 and 20 days before the election. From our conversation I had no idea that it needed done.

Also, I did try to contact by mail and phone all persons who contributed in excess of \$200 to get full name, not initials and occupations as required. Was able to get majority of them but there are several that I was not able to get despite my efforts. Again, I really appreciate the time and effort you gave me during the past election year. You were incredibly helpful and patient for my first and last time that I will ever be treasurer for a candidate. Please let me no if this anything else I need to do.

Sincerely,

Richard
